Digitizing DNA Sequences Using Multiset-Based Nucleotide Frequencies for Machine Learning-Based Mutation Detection

Numerical simulations for radiated bioconvection flow of nanoparticles with viscous dissipation and exponential heat source.

Novel DNA Numerical Mapping via Pseudo-Metric Free Semigroups for Machine Learning-Enabled Sequence Comparison Tasks

Factors Influencing Breast Cancer Knowledge and Attitudes of Women in Abbottabad, Pakistan

Application of interval t-norm fuzzy ideals of hemirings with intervals valued characteristics function

Sanaa Anjum

Mathematics Lecturer | Researcher (Data Science) | Advanced Mathematics LLM Trainer | Curriculum Development
Rawalpindi, Punjab, Pakistan

Summary

Experienced mathematics lecturer with over a decade of teaching excellence, now expanding into clinical data science within clinical research organizations while maintaining administrative expertise. Skilled in developing student-centered curricula and innovative teaching materials that foster critical thinking, with a proven ability to identify individual learning needs and define measurable outcomes. Proficient in statistical analysis, data visualization, and developing predictive models using machine learning techniques for clinical decision support. Collaborates closely with clinical researchers, biostatisticians, and data managers in study execution. Demonstrates leadership by training junior team members and continuously improving data analysis processes. Previously managed operations and ensured regulatory compliance in a pharmaceutical sciences institute, showcasing expertise in staff management, event coordination, and academic advising. Design and refine advanced mathematical problems and proofs using LaTeX, providing expert feedback on AI-generated solutions and collaborating with researchers to improve model performance and dataset quality. Committed to continuous professional development and leveraging new technologies to enhance both teaching and data science practices.

Experience

Turing Enterprises Inc
Advanced Mathematics LLM Trainer
August 2025 - Present (5 months)
Remote

- Crafting, testing, and refining high-quality prompts to guide AI in generating accurate mathematical reasoning and proofs.
- Evaluate and provide rigorous feedback on AI-generated outputs to ensure accuracy, clarity, and academic relevance.

- Writing, editing, and formatting mathematical manuscripts and technical reports using LaTeX.
- Collaborated with interdisciplinary global teams of AI developers and researchers to improve model quality.

University of Wah

18 years 2 months

Lecturer

March 2012 - Present (13 years 10 months)

Wah Cantt, PK

- Creating high-impact learning content including topics in Algebra and Analysis
- Member of departmental committee responsible for revising the undergraduate curriculum to align with HEC standards
- Designed efficient lesson plans as per curriculum standards
- Used variety of learning modalities and support materials to facilitate learning process accentuate presentations
- Mentored and advised students to explore career pathways based on amplifying knowledge, skills, and strength
- Coordinate with team members for research activities
- Participated in professional development opportunities stay up-to-date with latest trends in field

Lecturer (Online)

March 2020 - March 2022 (2 years 1 month)

Wah Cantt, PK

- Strong understanding and knowledge of various mathematical concepts, including algebra, analysis, statistics
- Proficiency in using online teaching platforms and tools such as Zoom, Google Meet, and virtual manipulatives
- Ability to breaking down complex problems into smaller, manageable steps and guiding students through the problem-solving process
- Organizational skills and ability to manage time effectively during online tutoring sessions to cover planned material
- Develop comprehensive Mathematics curriculum align with HEC standard

Demonstrator

November 2007 - March 2012 (4 years 5 months)

Wah Cantt, PK

- Instructed undergraduate students a range of courses, including General and Basic Mathematics, as well as advanced subjects such as Algebra and Analysis
- Coordinate with departmental team to ensure cohesive curriculum integration across subject
- Evaluated and revised lesson plans and course contents to achieve student-centered learning

Continuum Research Center

Clinical Data Scientist

October 2022 - Present (3 years 3 months)

Wah Cantt, PK

- Gather, clean, and integrate data from various clinical sources for comprehensive analysis
- Perform statistical analyses and develop predictive models to support clinical decision-making
- Develop predictive models using machine learning and statistical techniques to forecast clinical outcomes
- Assist in designing clinical studies, developing protocols, and creating visualizations to communicate findings
- Prepare detailed reports and presentations for diverse stakeholders in clinical research
- Collaborate closely with clinical teams, biostatisticians, and data managers to ensure successful execution of clinical studies

Education

International Islamic University, Islamabad

Doctor of Philosophy - PhD, Mathematics · (February 2019 - December 2025)

Quaid-i-Azam University, Islamabad

Master of Philosophy - MPhil, Mathematics · (February 2010 - March 2012)
